

TRITCH DESIGN
RESIDENTIAL ARCHITECTURE

Tritch Design is a residential design company that creates unique and exciting homes for inspired families in the Twin Cities region. We are dedicated to creative and thoughtful design, achieving exceptional homes. Let us put our 20 years of award-winning experience to work on your next project.

Tritch Design works together with the client to render an inspired and thoughtful design. Each plan represents the clients personal touch while incorporating current design styles that will serve each family's needs. Whether new construction or a renovation we are committed to quality, inspired and outstanding design. The final product is about fulfilling the client's dreams and making it their reality.

TRITCH DESIGN
RESIDENTIAL ARCHITECTURE

~ MIRROR LAKES RESIDENCE ~

The warmth of specifically chosen wood species used in different applications give this home a unique presence. Reclaimed oak timber beams with oak planking between are highlighted in both the kitchen ceiling and vaulted family room ceiling. Slightly distressed cherry cabinets with a glazed finish contrast the enameled trim work throughout most of the home. Quarter sawn oak cabinetry in the family room works in harmony with the uniquely patterned oak floor. Reclaimed pine molding is fixed on the foyer ceiling framing a stenciled work of art. This home has many elements of design and many architectural features that create one incredible experience.

RESIDENTIAL ARCHITECTURE

~ **DOLAN RESIDENCE** *~*

Inspired by French Country architecture, this residence sets on a high knoll overlooking rooftops and wetlands. The entrance to this home captures your attention with a high vaulted Great Room ceiling supported by large wood timber trusses and abundant natural light through massive windows to the rear. Enameled cabinetry, white oak floors and just the right amount of detailing give the feeling of “country”, the client desired.

RESIDENTIAL ARCHITECTURE

OLAH RESIDENCE

Situated on a large lot, adjacent to a land preservation area and wildlife, this home enjoys everything nature has to offer. The Shingle Style architecture, cedar shingle siding and weathered edged stone helps this residence nestle perfectly with the surroundings. Lightly distressed enameled cabinetry is mixed with tinted cherry cabinetry and southern chestnut floors creating perfect warmth and contrast. Above the garage is a guest suite which allows plenty of privacy for guests.

RESIDENTIAL ARCHITECTURE

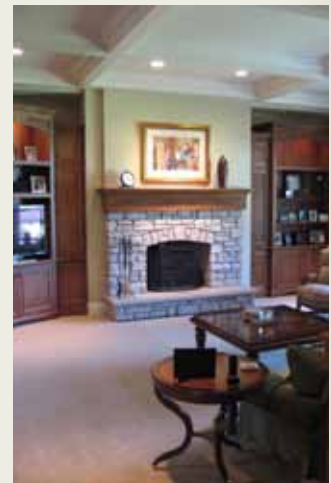

~ PARKWOOD RESIDENCE *~*

This European residence is highlighted with steep pitched roofs, arched windows and reclaimed timber columns supporting an entry arch clad in copper. Walnut floors and a large walnut kitchen island captured your attention in this wonderfully detailed kitchen. Warm cherry columns and cabinetry in the great room contrast the enameled coffered ceiling. A playroom above the garage provides zoning for kid's playtime.

TRITCH DESIGN
RESIDENTIAL ARCHITECTURE

YORK AVENUE RESIDENCE

Inspired by French Country and Cottage detailing this home was designed for a young family to grow. Four bedrooms, four baths, kids media space, laundry room and the owners office all upstairs needed to be zoned for kids and parents activities. The millwork is enameled to allow the wall colors to give character to the space. The wide oak plank wood floors, slightly stained give a warm foundation to every room.

TRITCH DESIGN
RESIDENTIAL ARCHITECTURE

~ HALIFAX MODEL ~

This cottage style home is currently on the Parade of Homes tour. It was designed specifically to take advantage of the views of Minnehaha Creek located at the rear of the property. The property is in a transitioning neighborhood and the challenge was to design a home that fits with the surrounding residences in the neighborhood. Scale and style were very important on the exterior as well as the interior. There is an abundance of millwork and detail throughout the entire home. Every room has exceptional finishes and the entire home is a wonderful experience.

RESIDENTIAL ARCHITECTURE

WILD MEADOWS RESIDENCE

Size and balance, important to the clients vision, is obvious as you approach this home. An expansive front porch with significant columns welcomes visitors to this wonderful Shingle Style home. Once inside this traditional styled home enjoys every view to the outside through expansive double hung windows. The millwork and many cabinets are enameled white, while some cabinets are purposely stained for contrast and warmth. A bonus room upstairs, a large family space at the lower level and sport court under the garage keep this young family ready for playtime.
